CITC Technical Specification

Document Number: IT003
Revision: Issue 1
Date: 10/01/2010 G

Specification for Laser P-P-Links Equipment

Issued by The Communications and Information Technology Commission of Saudi Arabia in accordance with article 89 of the Telecommunications Bylaw.

Communications and Information Technology Commission

Scope

This document applies to Laser P-P-links Equipment

All telecommunications and radio terminal equipment must comply with the relevant technical specifications established by CITC. In addition, such equipment may be subject to regulations for Declaration of Conformity or registration. See http://www.citc.gov.sa/ for details.

If more than one interface type is offered by a piece of equipment, each interface must meet the applicable technical specifications.

Entry into force

This specification shall enter into force on 10/01/2010 G

Proof of compliance

It is recommended that test reports are obtained from a laboratory that has been accredited by a body that is a member of the ILAC Mutual Recognition Arrangement.
Technical requirements
Testing should be carried out to ensure compliance with the following specifications:

**EN 300 440**
Electromagnetic compatibility and Radio spectrum Matters (ERM); Short Range Devices; Radio equipment to be used in the 1 GHz to 40 GHz frequency range; Part 2: harmonized EN covering essential requirements of article 3.2 of the R&TTE Directive.

**EN 55022 / CISPR 22**
Information technology equipment — Radio disturbance characteristics — Limits and methods of measurement.

**EN 60825-2**
Safety of optical communication systems

**General**
In addition to meeting the above requirements, all equipment must comply with the requirement of CITC specification GEN001, be safe and must not adversely affect other electrical equipment.

Obtaining technical standards
CENELEC, IEC and CISPR standards may be obtained cost from [www.cenelec.org](http://www.cenelec.org) and from [www.iec.ch](http://www.iec.ch) respectively.

Network information (only for network interfaces)
Further information on the characteristics and presentation of network interfaces can be found by visiting operator's website.
