CITC Technical Specification

Document Number: RI086
Revision: Issue 1
Date: 10/01/2010 G

Specification for Broadcasting DAB Transmitting Equipment

Issued by The Communications and Information Technology Commission of Saudi Arabia in accordance with article 89 of the Telecommunications Bylaw.

Contents
This document comprises the following sections:

Scope .......................................................................................................................... 2
Entry into force .......................................................................................................... 2
Frequency of operation ........................................................................................... 2
Proof of compliance .................................................................................................. 3
Technical requirements ............................................................................................ 3
Additional requirements ......................................................................................... 3
Obtaining technical standards ................................................................................. 3
Network information (only for network interfaces) .................................................. 4
Document history ..................................................................................................... 4

Scope
This document applies to Broadcasting DAB Transmitting Equipment

All telecommunications and radio terminal equipment must comply with the relevant technical specifications established by CITC. In addition, such equipment may be subject to regulations for Declaration of Conformity or registration. See http://www.citc.gov.sa/ for details.

If more than one interface type is offered by a piece of equipment, each interface must meet the applicable technical specifications.

Entry into force
This specification shall enter into force on 10/01/2010 G

Frequency of operation
Following table is showing information on frequency bands, maximum output power and applicable specifications:

<table>
<thead>
<tr>
<th>Frequency band</th>
<th>Maximum Output or Magnetic Field</th>
<th>ETSI Standard</th>
</tr>
</thead>
<tbody>
<tr>
<td>47 - 68 MHz</td>
<td>*</td>
<td>EN 302 077</td>
</tr>
<tr>
<td>174 - 240 MHz</td>
<td>*</td>
<td>EN 302 077</td>
</tr>
<tr>
<td>1 452 - 1 492 MHz.</td>
<td>*</td>
<td>EN 302 077</td>
</tr>
</tbody>
</table>

* Specific output power is subject to specific licensing conditions.
Proof of compliance

It is recommended that test reports are obtained from a laboratory that has been accredited by a body that is a member of the ILAC Mutual Recognition Arrangement.

Technical requirements

EN 302 077-1
Electromagnetic compatibility and Radio spectrum Matters (ERM); transmitting equipment for the Terrestrial - Digital Audio Broadcasting (T-DAB) service; Part 1: Technical characteristics and test methods.

EN 302 077-2
Electromagnetic compatibility and Radio spectrum Matters (ERM); transmitting equipment for the Terrestrial - Digital Audio Broadcasting (T-DAB) service; Part 2: Harmonized EN under article 3.2 of the R&TTE directive.

EN 301 489-1
Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements.

EN 301 489-11
Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 11: Specific conditions for terrestrial sound broadcasting service transmitters.

General
In addition to meeting the above requirements, all equipment must comply with the requirement of CITC specification GEN001, be safe and must not adversely affect other electrical equipment.

Additional requirements
A licence must be obtained before this kind of equipment can be used.

Obtaining technical standards
ETSI technical standards may be obtained free of charge for individual use from the ETSI website www.etsi.org.
Network information (only for network interfaces)

Further information on the characteristics and presentation of network interfaces can be found by visiting operator's website.
